OMBRE / TEASE BOUTIQUE SALON

MICHAEL BOYCHUCK,
LIFESPA + SALON

TRESS TO IMPRESS

Celebrity colorist Michael Boychuck has helped Hollywood's A-listers look their best. From Paris Hilton and Jennifer Lopez to Gwen Stefani and Fergie, Boychuck has hooked up their shades. Here are his three picks for spring color trends. Take note. —*Laura J. Downey*

RED IS RIGHT

"Natural and electric reds are in. Former Miss USA Alyssa Campanella's red is uninhibited and wild. Her color screams hot, and it says she has a fiery personality. But if you want to go electric red, *Mod Men's* Christina Hendricks' tint is a great starting point, too."

BLOOM IN BROWN

"Transitioning from auburn into gold is easy. Jessica Alba does ombre very well. She takes her brown base a shade or two lighter for an independent, trendy feel!"

BIG BANG BLOND

"There's definitely a blond trend. Kaley Cuoco from *The Big Bang Theory* does it right with the subtle contrast. Her color says she is fun, vivacious and has an outgoing personality. It exemplifies an extreme blond attitude."
